

AGHA MUHAMMAD AHMED MEHMOOD

Software Automation Engineer

📞 03024116225 ✉ aghaahmed512@gmail.com 📍 Lahore Pakistan  [LinkedIn](#)

PROFILE

Motivated Software Automation Engineer with 3+ years of experience delivering reliable, scalable end-to-end automation for both consumer-facing travel platforms (KAYAK, Momondo, HotelsCombined) and enterprise HR / ATS systems (HireStream). Strong expertise in WebdriverIO, TypeScript, JavaScript, cross-browser testing, CI build stability, and Smart UI visual regression testing. Known for improving test reliability, reducing manual effort, and collaborating closely with cross-functional teams.

WORK EXPERIENCE

Software Automation Engineer

Arbisoft — Lahore, Pakistan
Jun 2022 – Present

- Design, develop, and maintain scalable end-to-end automation frameworks using WebdriverIO, JavaScript, and TypeScript
- Work across consumer-scale travel products and enterprise HR / ATS platforms
- Execute cross-browser & cross-platform testing using LambdaTest (Chrome, Firefox, Edge, Safari, macOS, iOS)
- Implement Smart UI visual regression testing to catch unintended UI and layout changes
- Monitor CI pipelines, analyze failures, identify flaky tests, and improve overall test stability
- Create clear Jira tickets with reproduction steps, evidence, and expected vs actual behavior
- Collaborate closely with developers, QAs, and product managers to align automation with business workflows

PROJECT EXPERIENCE

HireStream — Enterprise ATS / HR Platform

Arbisoft — Lahore, Pakistan
1 Aug, 2025 – Present

- Designed and automated end-to-end test flows for core ATS features such as:
 - Candidate creation and management
 - Job creation and job application flows
 - Form creation, submission, and candidate response workflows
 - Settings modules (Locations, Departments, Core Values, Forms)
- Implemented API-driven test data setup (user signup, login, candidate creation) to reduce test execution time and improve reliability.
- Validated email-based workflows using automated email verification for form submissions and candidate communications.
- Performed data export validations (CSV) to ensure correctness of exported candidate data.
- Maintained high test stability by identifying flaky tests, applying fixes, and improving synchronization strategies.
- Created detailed Jira tickets with clear reproduction steps, expected vs actual behavior, and test evidence.

Impact:

- Improved regression reliability for HireStream's core HR workflows.
- Reduced manual testing effort through stable and reusable automation coverage.
- Helped identify multiple product-level issues early through automation.

KAYAK — Travel search platforms

19 Dec, 2022 - 31 Jul, 2025
Arbisoft — Lahore, Pakistan

- Added test suites using WebdriverIO and TypeScript for web-based travel search platforms under the KAYAK brand.
- Built and maintained automation for Flights, Cars, Hotels, Packages etc.
- Added cross-browser coverage (Firefox, Edge, Safari, iOS) using LambdaTest.
- Used Chai assertions and custom helper methods to improve test readability and reusability.
- Implemented GTM and localization testing across brands and locales.
- Supported migration from Protractor to WebdriverIO.
- Actively monitored scheduled builds and improved test stability.

Impact:

- Improved stability and reliability of daily smoke, sanity and regression pipelines
- Reduced false failures by identifying and fixing flaky test.
- Helped identify multiple product-level issues early through automation.

E-Learning Technical Developer / QA

06 Jun, 2022 – 16 Dec, 2022
Arbisoft — Lahore, Pakistan

- Developed and customized interactive eLearning courses to meet specific client needs and learning goals.
- Reviewed and edited course content to ensure clarity, consistency, and alignment with instructional design principles.
- Applied user-friendly layouts and best practices in instructional design for engaging learning experiences.
- Performed detailed acceptance testing and created comprehensive QA reports documenting bugs and improvements.
- Conducted quality assurance testing for eLearning courses on both LMS and CMS,
- ensuring high-quality user experiences

EDUCATION

Bachelor of Computer Science

GCUF

11 Nov, 2017 – 12 Dec, 2021
Lahore, Pakistan

ICS

Islamia college railway road

07 Jul 2015 – 09 Sep, 2017
Lahore, Pakistan

Matriculation

Shinning boys School

07 Jul, 2013 – 07 Jul, 2015
Lahore, Pakistan

TECHNICAL SKILLS

- **Automation & Testing:** End-to-End Testing, Regression Testing, Cross-Browser Testing
- **Frameworks & Tools:** WebdriverIO, Chai, Mocha, LambdaTest, Smart UI
- **Languages:** JavaScript, TypeScript
- **Dev & QA Tools:** Git, Jira, CI/CD Build Monitoring
- **Domains:** Travel Platforms, HR / ATS Systems
